**Be P.Art!**

Partnership Building Activity

1- 7 September 2013, Torino, Italy

**Be P.Art!** organised by FLUXLAB Association is a Partnership Building Activity of the Youth in Action Program. Twenty youth workers coming from nine different European countries: Bulgaria, Estonia, Italy, Poland, Portugal, Romania, Slovenia, Spain, Switzerland and Turkey, belonging to cultural and youth associations or International Non-Governmental Organizations, will gather together in the city of Torino (North-West of Italy) from the 1st to the 8th of September 2013. All participants will learn how to create a good Y.I.A. training project and to use Art and artistic techniques for their work with youth. The aim of this meeting is therefore to create a valid partnership between the participating groups, to train youth workers by using a short set of ideal training projects, created through discussions and brainstormings, to analyse and share knowledge in the use of artistic techniques (visual, sculpture, music and performing arts) in non formal education practises and to create a network of associations interested in using and promoting them in the frame of the Youth in Action Programme and other Youth Activities.

### **The Goals of the project are:**

- Develop awareness of the intercultural dimension in the current socio-economic situation the European
- Create a strong network of partners between the various participating organizations;
- Develop Creativity and Entrepreneurship of the participants in group work and in multicultural environments within the Youth in Action Programme;
- To encourage the sharing of knowledge between participants from different socio-cultural contexts.
- Discuss, reflect and prepare a draft European training to be carried out in 2014, taking as inspiration the design ideas made by the participants in this PBA.
- Encourage the sharing of different ways to use expressive techniques and artistic practices in non-formal education, useful for their own personal baggage, and for the activities of their associations, especially with young people in difficult situations or people from disadvantaged backgrounds;
- Promote active citizenship and social integration of young people with fewer opportunities (young people with disabilities, geographical disadvantage, social and economic) through art.

We are looking forward to meeting you soon in Italy!
